PROFESSIONAL SUMMARY

Final-year B.Tech Information Technology student with hands-on experience in AWS cloud services, Python, SQL, data analytics, and web development, seeking cloud and data-focused opportunities to apply technical and analytical skills.

EDUCATION

NRI INSTITUTE OF TECHNOLOGY, Agiripalli, AP

2023 – 2027

B.Tech in Information Technology

CGPA: 8.653

SRI SARADA JUNIOR COLLEGE, Vijayawada, AP

May 2021 – May 2023

Mathematics, Physics, Chemistry

Percentage: 94

EXPERIENCE

Front-End Development Intern, Navodita Infotech IT Services

Dec 2024 – Jan 2025

- Developed responsive and user-friendly UI components using HTML, CSS, and JavaScript, ensuring seamless interaction across devices for an e-commerce platform.
- Enhanced design consistency, loading speed, and overall page performance across multiple screens by optimizing layouts, reducing redundant code, and improving front-end responsiveness.

Web Development Intern, CodTech IT Solutions

May 2025 – Jul 2025

- Developed responsive web pages using HTML and CSS and collaborated with backend developers to integrate REST APIs.
- Participated in code reviews and improved UI consistency across pages.

CLOUD & DATA PROJECTS

E-commerce Sales Analytics Dashboard

- Analyzed sales datasets using SQL, Excel, and Tableau to identify revenue trends, customer behaviour, and regional performance through interactive dashboards.

Technologies: SQL Workbench, Tableau, Excel.

Time Capsule

- Developed an online web page that allows users to store an email message and automatically deliver it at a future time. The future time can be set using either a specific date & time or a delay (seconds, minutes, hours, days).

Technologies: HTML, CSS, JavaScript, Postman, Python, AWS (Lambda, API Gateway, CloudWatch, S3).

Contact-Us

- Developed a serverless contact management application using AWS Lambda, API Gateway, and SES to automate email notifications and monitor execution logs through CloudWatch.

Technologies: HTML, CSS, JavaScript, Python, AWS (Lambda, SES, API Gateway, CloudWatch)

Cloud-OTP

- Developed a web page with email-based OTP authentication, supporting new user identity creation and verification using AWS Simple Email Service (SES).

Technologies: HTML, CSS, JavaScript, Postman, Python, AWS (Lambda, SES, API Gateway, CloudWatch, S3).

Bedrock-Powered Knowledge Retrieval System

- Developed a Generative AI document question-answering system using Amazon Bedrock and Amazon S3 that retrieves information from uploaded documents and generates context-aware responses to user queries.

Technologies: Amazon Bedrock, Amazon S3, Python, Generative AI.

TECHNICAL SKILLS

Cloud Technologies: AWS (S3, Lambda, API Gateway, SES, EventBridge, IAM, CloudWatch, CloudFormation, Secrets Manager, Athena, Bedrock).

Programming: Python, SQL.

Data Analytics: MySQL, Tableau, Microsoft Excel.

Core Concepts: DBMS, OOP, Data Structures and Algorithms, Operating Systems.

Developer Tools: Git, GitHub, VS Code, Postman.

Web Technologies: HTML, CSS, JavaScript.

CERTIFICATIONS

- AWS Certified Data Engineer Associate (DEA-C01) – AWS
- Deloitte Data Analytics Job Simulation - Deloitte / Forage
- AWS Solution Architecture Job Simulation - AWS / Forage
- Python for Data Science - NPTEL
- Introduction to Cloud Computing - IBM, Coursera
- Introduction to Artificial Intelligence - Infosys SpringBoard
